

Senai Sorsa

College Station, TX | 469-793-9249 | senai-sorsa@tamu.edu

EDUCATION

Texas A&M University - College Station, TX

Expected May 2030

Bachelor of Science in Aerospace Engineering

Cumulative GPA: First-Semester Student

Imagine International Academy of North Texas - McKinney, TX

May 2026

Graduated with STEM endorsement

Weighted GPA: 4.629/5.0

EXPERIENCES

NASA SEES Intern - Aeronautical & Geological Engineering

May 2025 – Aug 2025

- Selected as one of a competitive cohort of NASA SEES interns nationwide for advanced Earth and space science research
- Developed an AI model identifying sustainable-development challenges in urban planning using satellite and geospatial data
Earned acceptance of capstone research to the American Geophysical Union Fall Meeting
- Designed an experiment evaluating satellite positioning accuracy using crowd-sourced GLOBE Observer data, and presented findings to 100+ NASA and UT Austin faculty

McKinney YMCA - Youth Board Member & Fundraising Coordinator

May 2025 – Aug 2025

- Selected as 1 of 2 youth representatives to the McKinney YMCA Board, contributing to Y-Governance and planning
- Delivered speeches at YMCA events and section panels, secured fundraising for the YMCA's annual campaign, which raises \$400,000+ for the local mckinney community each year

LEADERSHIP

Robotics & Programming Club, McKinney, TX - Founder & President

Aug 2023 – May 2026

- Founded and lead a 30+ member robotics and programming organization, designing weekly curriculum in robotics, Python programming, and Arduino-based embedded systems
- Directed an annual AI & Robotics Showcase connecting 30+ student projects with science fairs and outside opportunities

YMCA Youth and Government, McKinney, TX - Head of Room, State Affairs Forum

Aug 2023 – May 2026

- Mentored 25+ delegates on public speaking, debate, and parliamentary procedure; recognized as a top delegate among 1,300+ participants state (see honors section)

PROJECTS & ACTIVITIES

Frictionless Wind Turbine Project, Engineering Project

2025 – 2026

- Devised and modeled a magnetic-levitation wind turbine using AMB system with magnetic gears to eliminate mechanical friction losses, modeled prototype on Solidworks and presented research at the Dallas Regional Science Fair

Maglev Train Mathematical Modeling, Research project

- Modeled EDS maglev levitation using differential equations, Fourier series, and Lorentz/London equations
- Applied Matlab to create a control system to prevent the train from being destabilized

Skin Cancer Diagnostic Model, AI Developer

2024 – 2025

- Engineered an AI diagnostic model achieving 98.8% accuracy in skin cancer detection and integrated it into a mobile app prototype, qualified into Texas State Science & Engineering Fair

Junior World Affairs Council, Student Officer

2023 – 2025

- Organized events that raised \$16,000 for global peace efforts, including \$8,000 directed toward demining operations and awarded \$3,000 from Global Youth Advocacy Fund grant

HONORS & RECOGNITION

- **Texas Science & Engineering Fair Finalist** - Top 48 out of ~1100 competitors at DRSEF
- **National YMCA Changemaker Program** - 1 of 80 Nationally Selected Delegates (out of ~500 applicants)
- **2x Outstanding Statesman Award** - Best performing speaker in my section of 150+ delegates
- **Congressman Keith Self's Youth Representative Council** - Selected as 1 of 30 in a Texas State Representative's council

SKILLS

SolidWorks • Arduino • MATLAB • Public Speaking • Data Analysis & Statistics • Mathematical Modeling
